PLANS DE FACADES EST ET OUEST - COUR DE SERVICE

This architectural rendering shows the East and West Facades of the Cour de Service. The building is a modern, multi-story structure with a facade composed of large, light-colored panels and dark, rectangular windows. It is situated behind a parking lot with several cars parked. In the foreground, there is a landscaped area with green grass, low-lying shrubs, and a paved walkway. A few trees are planted along the walkway and in the background. The sky is clear and blue.
